The man who annually announces the death of the peach crop in Kentucky has taken his pen in hand a little earlier this year, but in this day of wireless telegraphy and horseless carriages it behooves even the pessimist to get a move on himself. Of course the peach crop is killed, and killed dead as a herring. Did anybody ever hear of a time when the peach crop was not dead in February?—Glasgow

An exchange hits the nail on the head when it says: "You don't know. You can't tell. You may be on the list so don't get gay. If the town was permitted by ballot to banish ten of its most desirable citizens, we are dead sure we would receive a whole lot of votes. Did receive a whole for of votes. Did it ever occur to you that you name might appear on the list of those who Also Ran? When you are swiping your neighbors, very like-ly your neighbors are swiping you. You don't know. You can't tell. There is something good, some-thing to admire in every man. No person is entirely bad. Did you receive a whole lot of votes. person is entirely bad. Did you ever think of that? You are not much better than those with whom you associate. So, for fear the town willign to voting, and that you will be included in the list of also ran candidates to be invited to take your foot in your hand and get out, you should not be so ohlipper in scalawagging others. Did get out, you should not be so chip-per in scalawagging others. Did it ever occur that the gossiping habit grows on you like the white-key habit? Well it does, and if you are told that you are the big-gest gossip in town you would get mad and want to fight. Better he kind to your family and just to your neighbors. The town will be here long after you are forgotten, just the same.

#### ELECTRIC ROAD

The subject of gravest impor-tance to the business men of Montgomery county is being considered by our city representatives: Shall we have an electrically over the streets of Mt Sterling and through the county connecting us with Lexington We would have every citizen consider the question seriously. That the people of the county want it is no longer a mooted question, that the business men of Mt. Sterling realize thelbenefit of such a roac was in evidence last Tuesday when one hundred of them repre senting the various business inter ests of the city voted as a unit fo the road. The only question to be considered now by the Counci and the committee from the Busi ness Men's Club is the safe guard about the proposition. The build about the proposition. The building of the road will not cause the ing of the road will not cause the outlay of one cent by our country or city and it gives to us in freights and more frequent hauls just what we have been willing to pay for. Should the proposition with its various amendments be adopted by rious amendments be adopted by our council Mt. Sterling would be first to have the road and first to receive traffic benefits. We consider such a road of inestimable value to the locality adjacent to it and through which it passes. We Montgomery county may have have given our reasons and its but she will never be more satisfaction. The first item is our freight rates, reducing from 32 to 12 cents the same class. reducing from 32 to 12 cents or the same class. Then the mar-kets opened to ttle things pro duced by our farmers. An other of still greater importance is the location of factories, such as tobacco, cigars, handle, spoke, shoe, a

To grant this line right of way ver our streets would not be xclusive. If there are others that desire to share in our busines let them come, but give us this one.

Kentucky could easily solve the "Uncle Tom's Cabin" problem by arresting the actors as Goebel sus-pects and giving Judge Cantrill a chance at them.—Advance Ken-tuckian, W. F. Schooler, editor, Morehead, Ky., now of Mt. Ster-ling, Ky.

There may be time to attend to tragedy have been arreste dark tragedy have been arrested (in Kentucky or Indiana) tried and convicted. Be patient William and do not try to dodge the issue, We are not surprised that Repub-licans should endeavor to drop the matter or conceal it.

The citizens of Mt. Sterling are beginning to realize the kind of pavements we have.

### REASONS.

ming the Culpepper meeting and miny of that number have not become identified with any of the churches. It may be they are waiting to know more of the church doctrines before assuming church relationship, and for their benefit and that of others interested we hereby suggestto each pastor of the city to furnish us an article stating the reason for his 'church identi fications free from any controve sial spirit. We are not particular who shall lead off, but would sug gest that pastors arrange that among themselves. We remember a se of letters in the Louisville Post of this nature about one year ago and that the public necame inter ested and were eager for each Satur day edition containing the letters What do you say, brethren? Another reason why we are auxilians to locate this road here is this: If we don't get it some other place near u will and then not withstanding our pluck we would go to the repaining list. We are for Mt. Sterling and Montgomery first.

This plant will not only be capable of furnishing power for carrying passofter running of machinery and that at a much lower rate than we are now producing it. Also a special line from the same power house would give Mt. Sterling a competing illuminating system and it is more than likely the expense for our public lighting would be greatly reduced.

To grant this line right of way over our streets would not be explosive. If there are others.

The Advance of Kansas, says the Kansas Gijy (Mo.) Star, to the first place among the wheat producing commonwealths again ealth actionics to the wonderful producitiveness of that state. It is also calculated to make one reflect on the remarkable history of agricultural experiments by the Kansas farmers. In the early eighties there was high pressure wheat growing, but it did not reach the volume, nor eren the relative importance, of the crops of the past few years. The crop of 1901 aggregated more than 90,000,000 bushels, by far the largest of any state in the union. This crop is when the growing in Kansas has passed through many experimental stages, as has thegrowing ofmany otherapricultural produced. At first it was supposed that only spring wheat could be produced with profit in the state. This idea was dispelled by the demonstration of T. C. Heury, known as the "wheat king," who owned at ouc time (\$0,000 access of land near Abiline. Then yellow the spring wheat crop is an inconsiderable time in the total product.
